Arlee, MT 59821

Chairman  
Compact Commission  
Helena, MT

Chairman and Committee Members,

We the People, Farmers, Ranchers, Legislators, as citizens, Americans, as voters, who care most deeply about the future of this State of Montana and this Republic; can end this distortion of democracy by killing this compact right here and now in this committee.

*↓ THE SECRETARY OF THE INTERIOR, CONGRESS*  
This is an administration marked by the corruption of law and raw absolute abuse of power exercised by the Governor and Attorney General's office. We are headed down the path to the destruction of our freedom, our way of life and the pollution of the American dream.

It has become clear to me that the issue of how the water can be controlled and dispersed, is NOT based on research and science at all. It is pure unadulterated politics, and it is a criminal offense.

The waste of tax payers dollars to push this agenda with reckless disregard for the laws of the State constitution and the U. S. Constitution is criminal and the results will be law suits, liens filed at the federal level against this state, it's branches and individuals by those of us citizens willing to stand up for our rights, the state and the US constitution, and that number is growing daily.

I assure you, the wheels are already in motion. Only waiting to be turned loose. IT IS NOT TOO LATE, but with each tick of the clock, we are moving forward into the federal courts. UNLESS all land owners and those effected by the compact are at the table during negotiations, and the re-writing of this compact, all with equal rights and say, following all existing laws and constitutions as they were set up to do for all the citizens. NOTHING LESS IS ACCEPTABLE.

NO to this compact as it is written.

Thank You,

  
Dean Brockway

WATER POLICY INTERIM  
COMMITTEE. 2013-14
